

# Green from Home

**Are you looking for ways to help your employees engage with your organization's greening efforts?**

Introducing Project Neutral's Green from Home Challenge! This workplace engagement program uses Project Neutral's interactive carbon footprint calculator to help employees discover their personal climate impacts.

**With Project Neutral's workshops and team challenges, your employees will:**

- Build their knowledge of climate change and climate solutions
- Measure their carbon footprint
- Track their actions - and earn points towards a friendly competition
- Connect with each other in a fun and welcoming environment

## What's Included in the Team Challenge:

We will work with you to customize the Green from Home Challenge to fit your organizational context and staff requirements.

## Workplace Animation

- Team Leader training and support for campaign success
- Built-in engagement tracker to enable individual, team or workplace-wide competitions

## Three Interactive Virtual Workshops

- Measuring your Climate Impact and My Personal Climate Action Plan workshops plus optional bonus live Q&A session
- Includes webinar recordings

## Campaign Toolkits

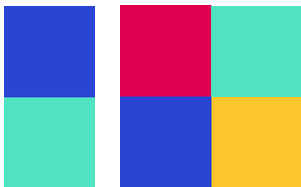

- Program Guide, Climate Action Planner, and promotional templates and ready-to-use collateral

## Detailed Data-driven Final Report

- Campaign snapshots and insights for internal or external ESG reporting
